Altitude Attitude + ACECoLab Pre-Season Fitness Training Program

FROM STRENGTH TO SNOW

WEEK 3: BASE – Build the Foundation

Each training day follows the same general structure:

Core — 5 minutes
Strength or Cardio — 15–20 minutes
Stretch + Mobility — 5 minutes
Total — approximately 30 minutes

Each Week Includes:

3 Strength Workouts
5 exercises × 3 rounds

2 Cardio Workouts
5 exercises × 3 rounds

Core + Stretch & Mobility
Can be completed **5–7 days per week**, including on strength, cardio, or recovery days.

CORE — 5 MINUTES

Forearm Plank — 60 sec
Start on your forearms and toes with elbows directly under your shoulders. Keep your body in a straight line from head to heels. Brace your core and squeeze your glutes without allowing your hips to sag or lift.

Glute Bridge with Block/Ball — 30 sec
Lie on your back with your knees bent and feet flat on the floor. Place a yoga block or small ball between your knees. Gently squeeze the block or ball as you press through your feet and lift your hips. Keep your hips level and glutes engaged throughout the movement.

Super Woman — 15 sec hold × 2
Lie face down with your arms extended overhead. Lift your chest, arms, and legs slightly off the floor and hold for 15 seconds. Lower with control, briefly reset, and repeat. Keep your neck neutral and focus on creating length through your body rather than lifting as high as possible.

Alternating Crunch — 15 each side
Lie on your back with your knees bent and feet flat on the floor. Place your hands lightly behind your head. Lift your shoulders from the floor and rotate your torso toward one knee. Return toward center and alternate sides, keeping the movement controlled and your core engaged.

STRETCH + MOBILITY — 5 MINUTES

1 Minute Each

1. Quad + Hip Flexor Stretch — 30 sec each side
Begin in a half-kneeling position with one knee on the floor and the opposite foot in front. Bend your back knee and, if comfortable, reach for your foot. Tuck your pelvis slightly and shift forward until you feel a stretch through the front of your hip and thigh. Switch sides.

2. Half-Split Hamstring Stretch — 30 sec each side
Begin in a half-kneeling position. Shift your hips backward and straighten your front leg, keeping your heel grounded and toes lifted. Hinge forward from your hips while keeping your spine long. Switch sides.

3. Calf + Ankle Rock — 30 sec each side
Begin in a staggered stance or half-kneeling position with your front foot flat. Gently drive your front knee forward over your toes while keeping your heel grounded. Rock forward and backward with control to mobilize the ankle and stretch the calf. Switch sides.

4. 90/90 Hip Switch — 60 sec
Sit with both knees bent and your feet wider than hip-width. Slowly rotate both knees from one side to the other, moving between 90/90 positions. Keep your torso tall and move through a comfortable range of motion.

5. Open Book Rotation — 30 sec each side
Lie on your side with your knees bent and stacked and your arms extended in front of you. Keeping your knees together, rotate your top arm across your body and toward the floor behind you. Follow your hand with your eyes, then return with control. Switch sides.

STRENGTH A — POWDER DAY

5 Exercises × 3 Rounds

Equipment Required: Resistance Band

1. Squat + Band — 12 reps
Place a resistance band above your knees and stand with your feet about hip- to shoulder-width apart. Sit your hips back and down while keeping your chest lifted and gently pressing your knees outward against the band. Press through your feet to return to standing.

2. Reverse Lunge + Knee Drive — 10 each side
Step one foot backward and lower into a reverse lunge. Drive through your front foot to stand while bringing your back knee forward toward your chest. Find your balance at the top before repeating.

3. Push-Up — 10 reps
Begin in a straight-arm plank with your hands slightly wider than shoulder-width. Bend your elbows and lower your chest toward the floor while keeping your body in a straight line. Press through your hands to return to the starting position.

4. Single-Leg Calf Raise — 10 each side
Balance on one leg and slowly lift your heel from the floor, rising onto the ball of your foot. Pause briefly at the top and lower with control. Use a wall or chair for balance if needed.

5. Monster Walk — 12 each side
Place a resistance band above your knees or around your ankles. Lower into a slight squat and take controlled diagonal steps forward and outward while maintaining tension on the band. Keep your knees tracking over your toes and your hips level.

Complete **3 rounds**.

STRENGTH B — LAST CHAIR

5 Exercises × 3 Rounds

Equipment Required: Resistance Band

1. Banded Good Morning — 12 reps
Stand on the center of a resistance band with your feet about hip-width apart and position the band securely across your upper back or shoulders. Soften your knees and push your hips backward while keeping your spine long. Squeeze your glutes to bring your hips forward and return to standing.

2. Step-Up + Balance — 10 each side
Place one foot fully on a sturdy box, bench, or step. Drive through that foot to step up, bringing the opposite knee forward into a balanced position. Pause briefly, then lower with control.

3. Single-Arm Band Row — 10 each side
Anchor a resistance band securely in front of you. Hold the band in one hand and pull your elbow backward toward your ribs while keeping your torso stable. Squeeze your shoulder blade toward your spine, then slowly extend your arm. Complete your reps before switching sides.

4. Single-Leg RDL — 8 each side
Balance on one leg with a slight bend in your knee. Hinge forward from your hip while extending the opposite leg behind you. Keep your hips square and spine long, then squeeze your standing-side glute to return upright.

5. Face Pull — 12 reps
Anchor a resistance band securely around face height. Hold one end in each hand and pull the band toward your face, driving your elbows outward and squeezing your shoulder blades together. Return slowly while maintaining control.

Complete **3 rounds**.

STRENGTH C — ALL MOUNTAIN MUSCLE

5 Exercises × 3 Rounds

Equipment Required: Resistance Band, 1 set of dumbbells or weights

1. Lateral Lunge — 12 each side
Step wide to one side and sit your hips back over the stepping leg while keeping the opposite leg relatively straight. Keep your chest lifted and knee tracking over your foot. Push through the bent leg to return to standing.

2. Wall Sit — 45 seconds
Place your back against a wall and slide down into a comfortable squat position. Keep your back against the wall, knees tracking over your feet, and core engaged. Hold while maintaining steady breathing.

3. Reverse Lunge → Balance — 10 each side
Step one foot backward into a reverse lunge. Drive through your front foot to return to standing and bring the back leg forward into a balanced position. Pause briefly before stepping back into the next repetition.

4. Monster Walk — 12 each side
Place a resistance band above your knees or around your ankles. Maintain a slight squat and take controlled diagonal steps while keeping constant tension on the band. Keep your knees aligned over your toes and avoid allowing them to collapse inward.

5. Arnold Press — 10 reps
Hold dumbbells in front of your shoulders with your palms facing you. As you press the weights overhead, rotate your palms forward. Reverse the movement as you lower the dumbbells back to the starting position.

Complete **3 rounds**.

CARDIO 1 — EARN YOUR TURNS

5 Exercises × 3 Rounds

15 seconds work / 45 seconds recovery

30 seconds each:
March in Place, Arm Circles + Reach, Alternating Knee Drives, Side-to-Side Steps

Workout

1. Jog in Place
Jog lightly in place while maintaining an upright posture. Keep your steps quick and light, pump your arms naturally, and land softly through your feet.

2. Jumping Jacks
Jump your feet outward as you raise your arms overhead, then jump your feet back together as your arms return to your sides. Maintain a steady rhythm and land softly with your knees slightly bent.

3. High Knees
Quickly alternate driving your knees upward toward hip height while pumping your arms. Keep your torso tall, core engaged, and steps quick and light.

4. Lateral Shuffle
Stay low in an athletic stance and take two or three quick steps sideways before changing direction. Keep your knees slightly bent, chest lifted, and feet facing forward.

5. Speed Skater — Step
Step one foot diagonally behind the opposite leg while shifting your weight onto the standing leg. Push laterally to the other side and repeat. Keep the movement continuous and controlled without jumping.

Complete **3 rounds: 15 seconds work / 45 seconds recovery per exercise.**

2-Minute Cooldown

30 seconds each:
Easy March, Standing Quad Stretch, Standing Hamstring/Calf Stretch, Deep Breathing + Overhead Reach

CARDIO 2 — DO IT FOR THE APRÈS

5 Exercises × 3 Rounds

15 seconds work / 45 seconds recovery

2-Minute Warm-Up

30 seconds each:
March in Place, Arm Circles + Reach, Bodyweight Squats, Alternating Knee Drives

Workout

1. Quick Squats
Stand with your feet about hip- to shoulder-width apart. Quickly lower into a comfortable squat and return to standing. Maintain good alignment and a controlled range of motion while increasing your pace.

2. Alternating Lunge + Knee Drive
Step one foot backward into a reverse lunge. Drive through your front foot to stand while bringing the back knee forward toward your chest. Return that foot to the floor and alternate sides continuously.

3. Walkout + Push-Up
From standing, hinge forward and place your hands on the floor. Walk your hands forward into a high plank, perform a push-up, then walk your hands back toward your feet and return to standing.

4. Fast Alternating Knee Drive
Stand tall and quickly alternate driving one knee and then the other toward your chest. Pump your arms and maintain a quick, controlled rhythm while keeping your core engaged.

5. Low-Impact Burpee
Squat down and place your hands on the floor. Step one foot and then the other backward into a high plank. Step your feet forward one at a time, return to standing, and reach your arms overhead.

Complete **3 rounds: 15 seconds work / 45 seconds recovery per exercise.**

2-Minute Cooldown

30 seconds each:
Easy March, Standing Quad Stretch, Standing Hamstring/Calf Stretch, Deep Breathing + Overhead Reach
